

TEST CASE FOR USER STORY 9

Find Manager

By Michael Phongsivorabouth

Team 96

The purpose of this document is to outline the steps to be taken to test the functionality of the User Story 9. The author of this document or Team 96 and its members cannot guaranty the validity of this test if any deviation from the steps described in this document are made.

Contact us page testing

1. The link to the web page works correctly and takes you to the correct page.
2. If you do not enter an Email address, a notification pops up saying you must enter an Email address.
3. If you enter an incorrect Email format, a notification pops up saying you must enter a valid Email address.
4. If you do not enter a name, a notification pops up saying you must enter a name.
5. You can enter and combination of letter and numbers in the Name field.
6. If you do not enter a message, a notification pops up saying you must enter a message.
7. You can enter anything into the message field.
8. The drop down menu works correctly. You can select any option from the menu.
9. The web page loads quickly.
10. Submit button only works if all required fields have valid data in them.
11. A loading animation only pops up when the submit button has been pressed an all fields have valid data in them.
12. When the Email has been sent, the page goes back to the home page (index.php)
13. The Email is correctly sent to the recipient.
14. In the recipient's Email inbox, the sent Email is there with the Name as the Who From and the enquiry type as the Email subject. The contents of the Email is the message written in the web page.
15. Selecting a different option in the drop down menu correctly changes the Email subject line to the option that was selected.
