

## **TEST CASE FOR USER STORY 12**

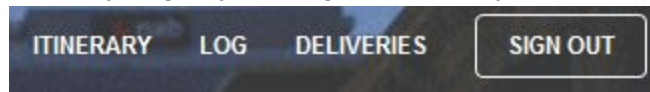

### **Delivery Itinerary and Tracking**

By Christopher Dare

Team 96

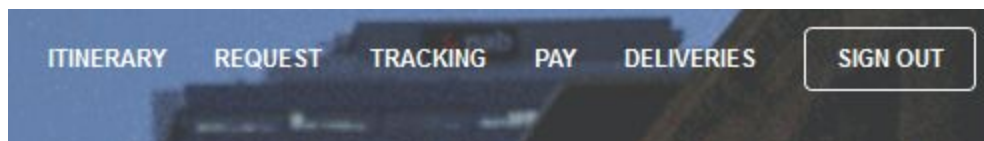

The purpose of this document is to outline the steps to be taken to test the functionality of the User Story 12. The author of this document or Team 96 and its members cannot guarantee the validity of this test if any deviation from the steps described in this document are made.

1. Log in as a Customer
  - a. Email address: customer@drop.it
  - b. Password: test.
2. The "Itinerary" tab should not be visible
3. Log out
  
4. Log in as a driver
  - a. Email address: [driver@drop.it](mailto:driver@drop.it)
  - b. Password: test
5. Navigate to the Itinerary page by clicking the "Itinerary" tab

*This is what a Driver should see*

6. A single table should appear in the middle of the screen
  - a. May not display if, and only if, there are no deliveries to be made within the time frame
7. This table should have the 4 titles (from left to right):
  - a. Time
  - b. Location
  - c. Action
  - d. Delivery ID
8. The table should be ordered by the time
9. All columns of every row should be filled
10. Log out
  
11. Log in as a manager
  - a. Email address: christopher.d.dare@gmail.com
  - b. Password: 123

*This is what the Manager should see*

12. Repeat step 5
13. Any number of tables may appear
  - a. Up to one table per driver

Itinerary			
			driver@drop.it
Time	Location	Action	Delivery ID
01:00 AM	sydn	Dropoff	42

*Example of what a Manager may see*

14. Each table should be identical to the table that the corresponding driver sees
15. Each table also has a title to the top right of it
  - a. This title tells you which driver this table corresponds to
16. Log out
  
17. If everything matches, the test was successfully completed
